1. This Office Action is in response to applicant's arguments received on 12 Sep 2005.
2. The following is an examiner's statement of reasons for allowance:

The applicant's arguments are convincing in view of the diagram which show the interpretation of the claim functions including those in the "wherein" clause. The signals claimed are interpreted as means plus function limitations in view of figures 2 and 3 which show the necessary apparatus elements that are indeed part of the claimed Handset and hands free kit circuitry. While the prior art shows the concepts involved, it does not explicitly show dividing the circuitry into the apparatus as claimed and disclosed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
4. Some correspondence may be submitted electronically. See the Office's Internet Web site <http://www.uspto.gov> for additional information.
